Pradipta Biswas, Ph.D.(Cantab)

Assistant Professor

Co-Chair, IRG AVA, International Telecommunication Union

Date 1-Jul-19

To Whom It May Concern

Subject: Internship Certificate for Yashasvi Nagda

Yashasvi Nagda worked in my lab (F³D Lab, CPDM, IISc) from 13th May 2019 to 30th June 2019. During her stay, she developed a new application using Microsoft UWP framework. The application allows users with severe speech and motor impairment to undertake online multiple choice examination and the application was tested successfully at the spastic society of India in Chennai. Yashasvi also continued her earlier work on dark patterns in website. She designed and executed an experiment on analyzing users eye gaze patterns while encountering dark patterns and submitted a paper in India HCI conference. I found her hard-working and motivated and will be looking forward to work with her in future.
